

Healthcare and Pharma

DISRUPTION IS REAL

- Pharma & Healthcare sector has amongst the highest compliance based training needs. Managing, tracking & ensuring compliance is a big challenge.
- Healthcare L&D professionals struggle to prioritize between training that is legally required Vs. training that helps employees develop professionally.
- Digital upgrades in Healthcare are a continuum. Keeping up with the pace of change is tough.
- Increased digitization creates bigger regulatory challenges on data privacy & security front.

TOP SKILLS BY 2025*

	Artificial Intelligence		Big Data Analytics
	Cloud Computing		Text, Image & Voice Processing
	Cybersecurity		Internet of Things
