

Banking & Financial Services

DISRUPTION IS REAL

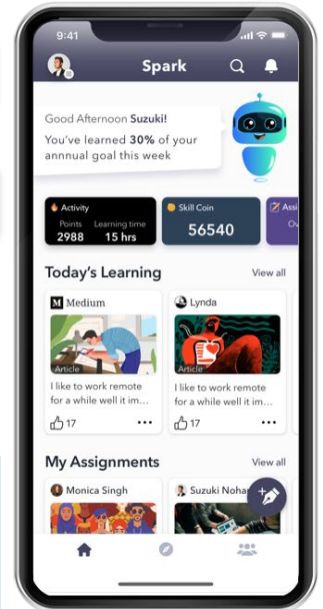

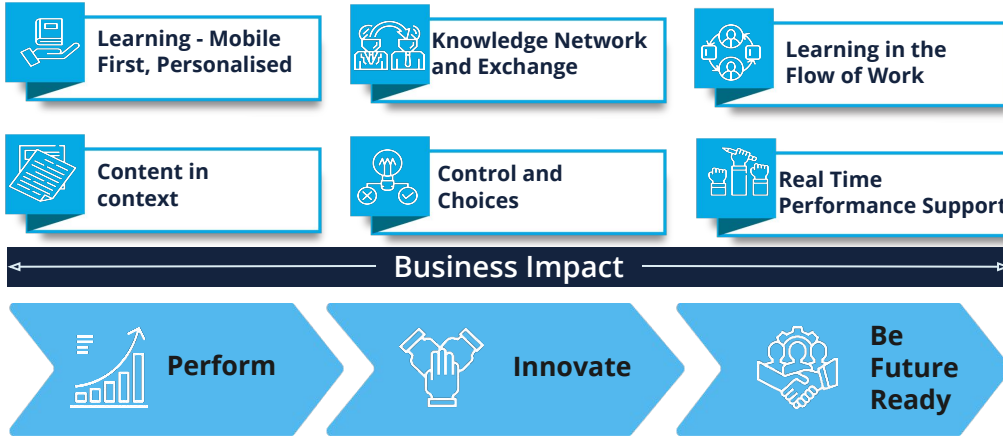

- Pace of change - From Mobile Banking to Blockchain, organizations face significant challenges
- High customer expectations - Consumers and businesses demand higher levels of service
- Evolution of the workforce - Broad spectrum of skills ranging from Tech savvy Millennials to traditionalists
- Evolving regulatory frameworks and compliance needs that make trade-off decisions difficult
- High costs of attraction, development and retention of talent with expertise in the industry

TOP SKILLS BY 2025*

 Artificial Intelligence	 Big Data Analytics
 Cloud Computing	 E-Commerce
 Cybersecurity	 Internet of Things
