

Learning in the Flow of Work

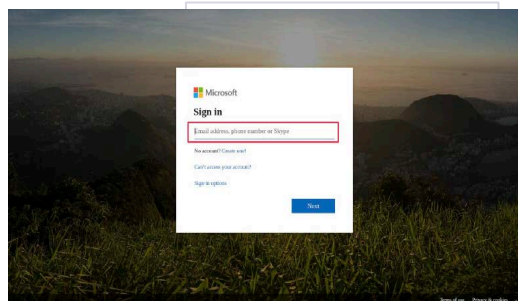

Microsoft Office 365 with EdCast Knowledge Cloud

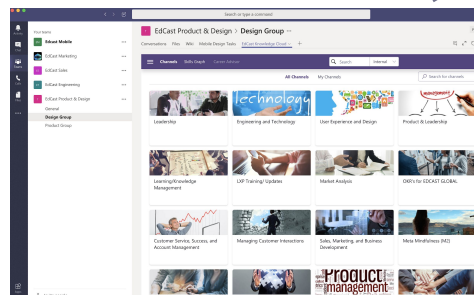

EdCast can be completely integrated with the business applications learners are using all day, every day.

One click access to widgets and in-app guides support the full Office 365 Suite whether Excel, Outlook, Word, or SharePoint.

Organizations can use the Knowledge Cloud to address sales enablement, training, and upskilling needs in ways that are completely integrated into the flow of work with Office 365.

Today, it's all about making learning accessible so your employees need to be productive, and successful.

EdCast supports the entire employee lifecycle from onboarding to offboarding
