

Defined for Learning Success.

The EdCast unified experience platform includes the integration of PluralSight content for an even more robust learning journey.

Through **EdCast integration with PluralSight**, learners benefit from robust content delivered within personalized learning journeys that are seamlessly tracked within the **EdCast** experience platform. Pluralsight content recommendations and training assets are surfaced within EdCast, driven by the learners learning goals and skills powered by our AI Skills Engine.

Pluralsight is a leading content provider that offers an expansive library of courses that focus on in-demand topics like cloud, data security, software development, infrastructure and much more. Within their platform, learners have access to a range of learning paths, video- and non-video based courses, and assessments.

Benefits Realized by the EdCast-Pluralsight Integration:

Content Accessible and Searchable within EdCast

- Courses are available as **SmartCards** in EdCast.
- Users can access content seamlessly by logging into their SSO-enabled EdCast account.
- Course search and navigation is very easy on EdCast LXP as it serves as an aggregated content platform.
- On EdCast, Pluralsight-hosted content can be:
 - Added to pathways and journeys
 - Posted to channels
 - Shared with other users and groups
- Pluralsight content is displayed in EdGraph reports.

Content Synchronization

- Daily synchronization between Pluralsight and EdCast.
- Synchronized content includes:
 - Course assignments, completion of courses
 - Content catalogs

Skill Assessment Synchronization

- Daily synchronization of skill assessment, content metadata and completion from Pluralsight to EdCast LXP.
- Skill assessment based on:
 - Skill assessment catalog
 - Completion of skill assessments
