Defined for Learning Success.

The EdCast unified experience platform now includes the integration of Docebo content for an even more robust learning journey.

Through **EdCast integration with Docebo**, learners benefit from robust content delivery within personalized learning journey that are seamlessly tracked within the **EdCast** experience platform. Gartner content recommendations and training assets are surfaced within EdCast, driven by the learners learning goals and skills, all powered by our AI Skills Engine.

Docebo is an AI-enabled learning management system (LMS) that empowers users to create, manage and host learning content

---

Benefits Realized by the EdCast-Docebo Integration:

Content Accessible & Searchable on EdCast

- Content available in Docebo is accessible as **SmartCards** in EdCast.

- Users can access content seamlessly by logging into their SSO-enabled EdCast account.

- Course search and navigation is very easy on EdCast LXP as it serves as an aggregated content platform.

- On EdCast, Docebo-hosted content can be:
  - Added to pathways and journeys
  - Posted to channels
  - Shared with other users and groups

- Docebo content is displayed in EdGraph reports.

Content Synchronization

- Daily synchronization between Docebo and EdCast.

Real-time Updates using Docebo Webhook

- Course completion synchronized in real time.

- Other categories of content synchronization includes:
  - Course creation and removal
  - Update of course properties
  - Course enrollment & unenrollment, assignment, and completion of courses
  - Content catalogs
  - Archived courses
