

Designed for Learning Success.

The EdCast Learning Experience Platform includes the integration of Cornerstone OnDemand content for an even more robust learning journey.

Through **EdCast integration with CornerStone OnDemand**, EdCast integrates with their content platform and builds a unified catalogue of learning content that is accessible through the LXP. The EdCast LXP uses Machine Learning (ML) to map content to a unified skills model and presents recommendations to learners based on their self-selected learning goals and skills.

CornerStone OnDemand LMS powers future-ready workforces by helping businesses modernize their learning and development experience and accelerate talent and career mobility.

Benefits Realized by the EdCast-CornerStone OnDemand Integration:

Content Access and Search within EdCast

- Content is available as **Smartcards** in EdCast.
- Users can access content seamlessly by logging into their SSO-enabled EdCast account.
- Content search and navigation is very easy on EdCast LXP as it serves as an aggregated content platform.
- Smartcards can be:
 - Added to pathways and journeys
 - Posted to channels
 - Shared with other users and groups
- CornerStone OnDemand content engagement data is displayed in EdGraph and in our data lake.

Content Synchronization

- Daily synchronization between CSOD and EdCast.
- Synchronization includes:
 - Content catalogs
 - Assignments
 - Individual users' My Learning Plan (MLP)

Content Assignment and Completion

- Daily synchronization of content assignment and completions including:
 - Newly added and updated content
 - Content assigned to users
 - Name of specific items completed by users, date and time of completion
 - Transcript details
