Defined for Learning Success.

The EdCast unified experience platform now includes the integration of Saba content for an even more robust learning journey.

Through **EdCast integration with Saba**, learners benefit from robust content delivery within personalized learning journey that are seamlessly tracked within the **EdCast** experience platform. Saba content recommendations and training assets are surfaced within EdCast, driven by the learners' learning goals and skills, all powered by our AI Skills Engine.

Saba also unifies traditional classroom education with eLearning, online classrooms and recordings.

Benefits Realized by the EdCast-Saba Integration:

Content Access and Searchable within EdCast

- Courses are available as **Smartcards** in EdCast.

- Users can access content seamlessly by logging into their SSO-enabled EdCast account.

- Course search and navigation is very easy on EdCast LXP as it serves as an aggregated content platform.

- On EdCast, Saba-hosted content can be:
  - Added to pathways and journeys
  - Posted to channels
  - Shared with other users and groups
- Saba content is displayed in EdGraph reports.

Content Synchronization

- Daily synchronization between Saba and EdCast

- Content synchronization includes:
  - Content catalogs
  - Archived courses

Content Assignment and Completion

- Daily synchronization of users' content assignment and completion includes:
  - Course creation, update, & removal
  - Course assignment & completion of courses
